EDUCATION

National Institute of Design(NID), Gandhinagar
M.des (Toy and Game design)
2020 – 2023

Sinhgad Institute Of Technology(SIT) Savitribai Phule Pune University (SPPU)
B.Tech(Computer Science Engineering)
2018 - Higher 2nd class

SecondaryEducation(10 + 2)
Kendriya Vidyalaya (CBSE)
2011 - 68%

Higher Education (10th)
Kendriya Vidyalaya (CBSE)
2009 - 80%

SOFTWARE PROFICIENCY

AI:
Claude code/cowork | Gemini | OpenArt | Mid journey | Chat GPT | Grok AI | AI art generation | Prompting and spec writing | Game building with Claude and other.

Adobe:
Adobe Illustrator | Adobe Indesign | Adobe Photoshop | After Effects

Prototyping tool:
Unity Game Development | Fusion 360 | Blender | Vuforia engine | Figma | Framer | Cocos Creator

Others:
Miro, Aurdino, Procreate, Sketch

Data:
Mixpanel | Looker

SKILLS & CERTIFICATIONS

TechXR Innovations Pvt Ltd. (Nov2022- Jan23)
Making interactive AR-VR applications and Digital Game Design (Unity 3D) certification

Awards & Achievemnets:
National Level : Basketball Player
State Level : Skating Champion
Scouts : Rajyapurskar awardee scout and nominated for Rashtrapa ti camp.

Competencies:

Play Experience Design	Research Methodologies
User research	Product Design
Design Thinking and prototyping	Character Design
Design Research	System Thinking
Design management	Storytelling and Storyboarding
Gameplay Design	Game Design Documentation
	Conceptualization

PROFESSIONAL EXPERIENCE

Game Designer, SplashLearn — Aug 2024 – Oct 2026
(joined as intern, converted to full-time in Mar 2025)

Key Responsibilities
- Design the whole game with core loops, levels and difficulty curves, rewards etc for K-5 educational games, from prototype to launch.
- Write game design documents and specs that engineering and art build from without guesswork.
- Prototype levels and games in Cocos Creator.
- Work with the product lead to improve the product, using Mixpanel and Looker data. Assist art and tech to develop and deploy whole games.

Key Achievements
- Delivered games for the ELA (English Language Arts) product.
- Designed reward and progression systems to improve retention by 30-40%. Ran hypothesis, change and measure cycles on funnels and drop-off points.
- Making whole game using **AI-assisted pipeline, making GDDs and art**, cutting concept-to-playable time by months.

Business Design Lab — (May 2023- Aug 2024)
Play experience designer

Unbox Event - Unbox Business innovation gamified workshop
- Orchestrated and delivered a gamified workshop experience tailored for stakeholders including investors, founders, entrepreneurs, designers, and product managers.

Leadership Offsite Program - Client Project **(Xylem)**
- Contributed to a client project aimed at addressing real-world organizational challenges. Co-facilitated the delivery of the Unbox experience, integrating research findings and industry trends into actionable insights for the client.

Website Design (BDL) - UI/UX Experience
- Led the creation of the company's website design, focusing on intuitive UI/UX elements.

Biz Thinking Sessions
- Developed Digital Collaborative Play Experience Design templates on Miro, focusing on business thinking concepts such as building business models by identifying Opportunities through market trends, industry forces etc.
- Created templates to identify core values and culture of competitors and aligning yourself with market to identify a blue ocean strategy for your business models.

Comic Book Project
- Led the design of the comic book print layout.
- Played a pivotal role in orchestrating a successful Kickstarter campaign.

UNICEF (Project Play) — (Sep 2021- Feb 2022)
A live project with UNICEF HQ The aim of the project was to develop tools that cater to the social, emotional, cognitive and motor skills of children to meet their developmental needs.. Made out of waste packaging boxes used to deliver nutrition-rich food to malnourished children all over the world. The project is now live and has reached 7.3 million children in 2022.

INDUSTRY PROJECTS

AR Experiences(Made in Unity)
AR Experiences are made in unity to get familiar with tools to develop. Includes: AR Car Garage | AR Video Player | AR Tiger | AR Room Decor

E-Waste(SystemDesignproject)
Mapping the flow of E-waste across the globe and how it impacts the overall system(India), Working with potential collaborators.**(Karo Smabhav)**

SpaceX (Digital Game Design)
AGame aboutdiscoveringour universe and learn ing about the facts of the known universe and Educating children and people about our known universe.
